Color: *_____*

SUMMARY OF COMMUNICATION

Lee's Lane
Jefferson County let bids twice for the installation of the gas collection system designed by SCS engineers but did not have enough funds to go ahead with the plan. SCS then redesigned the system off site using existing wells for collection and venting of gases. The county felt that venting gases would be ~~less~~ a pollution problem than ~~venting~~ burning them.

Ben Hardy has filed an acceptance to the State's Abate & Alleviate Order indicating that he plans to take no action to remove the 400 exposed drums. The state will have to schedule a hearing in Circuit Court to try and have the A&A order upheld.

Valley of the Drums

Reliance is going to the Valley Tuesday-5/27 to perform analysis on the drummed wastes that they plan to remove (802 drums). CECOS is the contractor who will perform the ~~drum~~ remedial actions. They indicated 10 working days would be time enough. Afterwards, Bill Fluer will come to get Ford's drums (338). Fluer you may recall is Distler's partner or was at one time.
